NEW WEED SEWING MACHINE
THE LAST AND BEST.
THE New Weed Sewing Machine Company have now at last completed their Three Standard Styles of
Weed Sewing Machines.
First—Their New "Family Favorite." Second—Their New, Light and Noiseless Manufacturers' Sewing Machine. Thirdly—Their immense heavy "Manufacturers' Favorite." The three together combining the advantages of all others up to the present time, being the BEST made and doing the best work—has received throughout Europe, the States, and upon this Coast, the
First and Highest Premium
at each and every public Fair since 1867 (the year it was completed), where any premium at all has been given or where its strong points have been really exhibited.
There is a difference!—All the premiums that the WEED Sewing Machine Company claim, from the
First and Highest Premium at the Great World's Fair at Paris, 1867
up to the present time, (see small circulars) are each and every one GENUINE Awards, or we will forfeit $500 for each and every false claim! Other Sewing Machines have had their Premiums but how many of them in the last two years?
There is a difference! says the "True Chronicle:" "This magnificent Sewing Machine comes forward in good time, and strikes exactly the right mark." Also, the editor of the "Independent" says, "Such a Sewing Machine as the WEED—the New F. F.—we have never seen." Thus the New WEED Sewing Machine is the
SIMPLEST AND STRONGEST,
the Last, and as we believe in modern improvement we may add the BEST Sewing Machine made as yet. It is the best Family Sewing Machine; it is the best Boot, Tailor's, Saddler's Sewing Machine; it is the most successful Sewing Machine! For already its name is a household word in both Europe and America, and is rapidly taking the place of all others. Its immense central Manufactory is in Hartford, Connecticut.
☞ Agents in all the Principal Cities in the World,

Grover & Baker's
ELASTIC STITCH
FAMILY
SEWING MACHINES
Excel all others.
They are more simple and durable, easier kept in order, make a stronger and more elastic stitch, a firmer and more beautiful seam than any other. They sew all fabrics from two common spools, require no rewinding o thread, fasten both ends of the seam by their own operation, and though every fifth stitch is cut the seam will not rip.
They Stitch, Hem, Fell, Cord, Bind, Tuck, Quilt, Gather, Braid, Embroider, Ruffle, Puff, and excel in Every Class of Machine Work.

THE STORIED YEARS.

What of thy life?
What thy story
Thou art telling year by year?
Is the toil of hand to harvest only human glory?
The ripened fruit of thought some brief memorial rear?
Or is the story of thy life
One thou wouldst desire to hear,
When thy hands are folded,
And the angels gather near?

What of thy life?
What of blessing
Hast thou reaped the passing year?
Has the love in benediction crowned the act of giving,
And the daily deprivation dried the fount of tears?
Then for heart and hand diffusive
Garnered riches are in store;
For the earthly deprivation,
Meed of blessing evermore.

What of thy life?
What its meaning
Told in action thro' the year?
Has the light of Truth Eternal from the lamp been streaming;
And the rays serene reflecting scattered doubts and fears?
In the cheering light of Heaven,
When the life-book is unsealed,
Brightly then will gleam the pictures
Of the truth in love revealed.

What of thy life?
What of toiling
Has the scepter of the angels o'er thy home been waving?
And the hope of all men been taken thro' the mist of tears?
Tho' the human stay be broken
God's own hand may still be near;
From the sorest visitation
God's dear love may beam out clear.

What of thy life?
What relating
By its influence thro' the year?
Is thy praying graced with watching, saying one with doing,
And they walk the golden picture of the God thy soul reveres?
If not, vain the lips' confession
When the thought book is revealed;
Life is love in thought and action,
God's decision unrepealed.

What of thy life?
What of winning
In the conflict o' the years?
In the strength of heart still weakness as in life's beginning;
And the starry prize far distant in the strife of years?
Summon all thy strength, my brother,
Life's evening draws apace;
Lengthened shadows 'round thee passing
Tell this year may close thy race.

What of my life?
What its meaning
Gathered from my storied years?
Memory's hidden alcoves open, every year redeeming;
Each forgotten thought and action quickly reappears.
Angels fingers scan the record
By the test of realms above,
And the seal of judgment tells the
True life, is the life of Love.

"CALL A MAN!"

Any one who is disposed to try to laugh will do well to read on.

John Jackson was a very industrious, hard-working man, of 23 years. Being the eldest child and only son he had always remained at home assisting his father upon the farm. John was much respected by every one in the neighborhood, and many a bright-eyed girl had secretly thought she would like to change her name to Mrs. John Jackson.

But John was no "ladies' man." The fact was, John was bashful. He would rather hoe potatoes all day than undergo the ceremonies of an introduction to a young lady. Not that John disliked the dear creatures, far from it. We believe that he in common with all bashful, well-meaning young men, entertained the very highest respect and admiration for them. And this, no doubt, was the principal cause of his bashfulness. He felt that they were superior beings, and that he was unworthy to associate with them upon terms of equality. But we cannot stop to moralize.

Nancy Clark was a daughter of a respectable farmer whose lands adjoined the Jackson farm. Nancy was a pretty, saucy little wench, and she liked John Jackson. When they were children they attended the same school, and as he was a few years her senior, was usually her champion in the childish disputes that arose between her and her companions. At last John became so much of a young man as to be kept from school. John discovered, too, that he was growing in stature, and it appeared to him as if he had been growing out of shape. His feet and legs seemed very awkward; he didn't know what to do with his hands; his face pained him—and taken all in all, he was inclined to think he was not more than half put together.

Now, the truth was, John Jackson was really a fine-looking young man, and nothing but his admiration of Nancy could have suggested any such foolish thoughts about himself.

As the novelists say, It was a lovely day in August. The heavens were clear, serene and beautiful; the trees were laden with golden fruit, and the beautiful birds twittered their songs of love in the branches. Earth—(here we have slid down to earth once more; such lofty flights, they make our heads dizzy). We were about to say that earth has yielded her bountiful harvest of a year's grass, and clover, and honeysuckles, which the noble yeomanry of Chesterville had garnered in their capacious storehouses—but, upon a second thought, have concluded to word it thus: "The farmers of Chesterville were done haying."

John Jackson's sister had a quiltinfi that afternoonn. His father had gone to Keith's Mill to get get some wheat ground and John was left to repair some tools to be ready on the morrow, to commence mowing some meadow grass. Suddenly it occurred to John that if he remained about the house in the afternoon, he would be called in at tea time, and required to do the honors of the table. To avoid this he quietly shouldered his scythe and stole away to the meadow, half a mile, fully resolved that he would not leave there until it was so dark that he could not see how to mow and thus avoid seeing the girls.

The meadow was surrounded on all sides by a thick forest, which effectually shut out what little breeze there might be stirring. The sun poured down its rays as though the little meadow was the focus point where the heat was concentrated. John mowed and sweat—and sweat and mowed, until he was obliged to sit down and cool off. Then it occurred to John that if he took off his pants he might be more comfortable. There could be no impropriety in it, for he was entirely concealed from observation, and there was not the slightest reason ts suppose that he could be seen by any person.

So John stripped off and with no cover save his linen—commonly called a shirt—he assumed his work. He was just congratulating himself on the fine time he was having haying, and the lucky escape he had made from meeting the girls, when he chanced to disturb a huge black snake, a genuine twister, with a white ring around his neck.

John was no coward, but he was mortally afraid of snakes. "Self-preservation" was the first passage that flashed upon John's mind, "legs take care of the body" was the next. Dropping his scythe, and spinning round like a top, he was ready to strike a 2:40 gait when at that moment the snake was near enough to hook his crooked teeth into John's shirt just above the hem. With a tremenduous spring he started off with the speed of a locomotive. His first jump took the snake clean from ground, and as John stole a hasty glance over his shoulder, he was horrified to see the reptile securely fastened to the hem of his garment; while the speed with which he rushed forward kept the serpent extended at angel of ninety degrees from the body.

Here was a quandry. If he stopped the snake would squeeze him to death; if he continued the race he must soon fall from exhaustion. On he flew, scarce daring to think how this dreadful race would end. Instinctively, he had taken the direction home, when a feeling of security came over him. Suddenly flashed across his mind the true state of affairs, his father gone—the quilting—and worst of all, the girls! This new horror sent the blood back curdling about his neck, and he come to a dead halt. The next moment he felt the body of the cold, clamy monster in contact with his bare legs and creeping around them in a sort of oozing way, as though his snakeship only meditated a little fun by way of ticklimg John upon the knees.

This was too much for human endurance—with a yell, such as man never uttered save when in mortal terror, poor John again set forward at break-neck pace, and once more had the pleasure of seeing the snake resume his horizontal position, somewhat after the fashion of a comet.

On he flew! John forgot the quilting, forgot the girls, forgot everything but the snake.

His active exercises (he paid particular attention to running) together with excessive heat, had brought on the nose bleed, and as he ran, ears erect and head thrown back, his chin, throat and shirt bosom, were stained with the flowing stream.

His first wild shriek had started the quilters, and forth they rushed, wondering if some mad Indian was not prowling about. By this time John was within a few rods of the barn, still running at the top of his speed, his head turned so that he could keep one eye on the snake and with the observe what course he must take. The friendly barn concealed him from the sight of the girls. He knew they were in the yard, having caught a glimpse of them as they rushed from the house. A few more bounds and he would be in their midst. For a moment modesty overcame fear, and he once more halted. The snake, evidently pleased with his rapid transportation, manifested his gratitude by attempting to enfold the leg of our hero within his embrace.

With an explosive "Ouch!" and urged forward by "circumstances over which he had no control," poor John bounded on. The next moment he was in full view of the girls, and as he turned the corner of the barn, the snake came around with a whiz something after the fashion of a coach whip.

Having reached the barn-yard, to his dismay he found the bars up; but time was too precious to be wasted in letting down bars. Gathering all his strength he bounded into the air—snake ditto—and as alighted on the other side, his snakeship's tail cracked across the upper bar, snapping like an India cracker.

Again John set forward, now utterly regardless of the presence of the girls, for the extra tick of the snake's tail, as he leaped the bars, had banished all his bashfulness and modesty, and again he had the pleasure of finding the snake in a straight line, drawing steadily at the hem of his solitary garment.

The house now became the center of attraction, and around he revolved with the speed of thought. Four imes in each revolution, as he turned the corner, his snakeship came round with a whiz which was quite refreshing.

While describing the third circle, as he came near the group of wonder-struck girls, without removing his gaze from the snake he managed to cry out, "Call a man!"

The next moment he whisked out of sight and as quick as thought reappeared again, and exclaimed: "Call a man!"

Away he whirled again, turning the corner so rapidly that the whiz of the snake sounded half-way between a whistle and the repeated pronunciation of a double e.

Before either of the girls had stirred from their tracks, he had performed another revolution, again exclaiming: "Call a man!"

Away he flew, but his strength was rapidly failing. Nancy Clarke was the first to recover her presence of mind, and seizing a hoop-pole, she took her station near the corner of the house, and as John reappeared, she brought it down upon the snake with a force that broke his back and his hold upon John's nether garment at the same time.

John rushed into the house and to his room, and at tea time appeared in his best Sunday suit, but little the worse for the race, and to all appearances cured of bashfulness. That night he walked home with Nancy Clark.

The New Year they were married, and now when John feels inclined to laugh at his wife's hoops, or any other peculiarity, she has only to say, "Call a man," when he instantly sobers down.

VOLTAIRE said: "The more married men you have the fewer crimes there will be. Marriage renders man more virtuous and more wise. An unmarried man is but half of a perfect being, and it requires the other half to make things right; and it cannot be expected that in this imperfect state he can keep the straight path of rectitude any more than a boat with one oar can keep the straight course. In nine cases out of ten, where married men become drunkards, or where they commit crimes against the peace of the community, the foundation of these acts were laid while in a single state, or where the wife is, as is seldom the case, an unsuitable match. Marriage changes the current of a man's feelings and gives him a center for his thoughts, his affections and his acts."

MR. SMITH was asked how he could account for nature's making him so ugly. "Nature was not to blame," said he. "When I was two months old I was considered the handsomest child in the neighborhood; but my nurse swapped me away for another boy, just to please a friend of hers, whose child was homely looking."

OMINOUS.—It begins to look ominous when the woman of the period wants her club. She used to be satisfied with her broomstick.

TENNESSEE taxes dogs in aid of the school fund, but exempts one dog to each family.

PREFER diligence before idlness unless you esteem rust above brightness.

LARGE apartments and large heads are not always the best furnished.

SOL HEWES SANBORN, an eccentric old hatter of Medford, Mass., has made one of the oddest of wills, and, anxious to enjoy the notoriety of it in his life time, has published it. He gives his body to Prof. Agassiz and Dr. O. W. Holmes, to be placed in the museum of anatomy at Cambridge. But he wants two drum heads made of his skin, on one of which shall be indellibly written "Pope's Universal Prayer," and on the other the Declaration of Independence; and on these drum heads shall be beaten the national air of Yankee Doodle at the base of Bunker Hill monument annually at sunrise on the 17th of June. The parts of his body useless for anotomical purposes are to be composted for a fertilizer "to nourish the growth of an American elm, to be planted or set out on some rural public thoroughfare, that the weary, wayfaring may rest, and innocent children playfully sport beneath the shadow of its umbrageous branches, rendered luxuriant by my carcass."

ONCE A WEEK.—A week is a life. A week is a history. A week makes events of sorrow and gladness, which people never heard. Go home to your family, man in business! Go home to your hearth erring wanderer! Go home to those you love, men of toil, and give one night to the joys and comforts fast flying by!

Leave your book with complex figures your dingy office, your busy shop! Rest with those you love, for heaven only knows what the next Saturday night will bring you! Forget the world of care and the battles of life which furrowed the week! Draw close around the family hearth! Saturday night has awaited your coming in sadness, in tears, and in silence. Go home to those you love, and as you bask in the loved presence, and meet to return the embrace of your heart's pets, strive to be a better man, and bless heaven for giving his weary children so dear a stepping stone in the river to the eternal as Saturday night.

BE SOBER.—It is not merely against "excess of wine" that the apostles warns us, but excess in everything; against all extremes, excitements, feverishness—fruits of an unbalanced mind, an uncontrolled, unregulated spirit. Self-restraint, self-denial, moderation in all things, calmness, these may well be included under the words, "Be sober." Non-conformity to the world, rejection of its vanities, follies, feasts, pleasures, revellings, these are also included. Be temperate in all things. Mortify your members which are upon the earth. Beware of any temptation that would betray you into an unsteady, feverish state of mind, and throw you off your balance and your guard. For the Lord is at hand!

A PHYSICIAN in Lexington, Ky., has discovered a process by which he claims that the fusel oil in Bourbon whiskey can be so changed in its components, by producing oxide of amyle, as completely to neutralize its evil effects, and render the whiskey pure and free from all disagreeable taste or odor, even when new. This is nothing, however, to discoveries heretofore made and now in very general use, by which raw corn spirits by the adition of a few chemical ingredients are almost instantaneously transmuted into old French brandy.

THE Clerk of a St. Louis court has prepared a "diploma," or decree of divorce, printed on velvet paper, which he recommends as both useful and ornamental—in fact, even suitable for framing. At first he thought to have on it a representation of the coat of arms of Missouri, with two bears, and the legend, "United we stand, divided we fall," but after mature deliberation, came reluctantly to the conclusion that this motto was not suitable for a decree of divorce.

JUST as an auctioneer was saying "Gone!" a few evenings since, his audience went through the floor into the cellar, but happily without hurting any of them. The auctioneer, as soon as he found his legs, remarked that the accident would enable him to sell lower than before, and called for a "bid" and they bid him "Good night."

ANOTHER VICTIM OF TOBACCO.—The life of a Virginia lady was recently snuffed out at the tender age of one hundred years. She was an orphan.

ADJOINING COUNTIES.

The following we clip from the Tulare *Times* of March 25th:

ON Friday evening last a man by the name of Buckingham shot and severely wounded P. H. Tripp, a citizen of this place. It appears that Mr. Tripp was approaching the Graham House, about 10 o'clock, and when within a few steps of the porch, was fired upon by Buckingham, the ball taking effect in the right thigh, producing a painful, but not dangerous wound. There seems to be no cause for this deed, except it be pure wantonness, as Tripp was a total stranger to Buckingham, they never having spoken to each other in life, and there was no difficulty of any character whatever during the day or evening that could have furnished an excuse for the shooting of any one. Buckingham made his escape.

WE understand that a ball was given on Kings river, on last Friday evening, by Mr. Daggs, who resides about three miles this side of Kingston. We were unable to attend but we are informed by parties from this place who were present, that it was a complete success. King's river foks are trying to surpass the Tule riverans in getting up parties and if the former are not careful they will have to succumb to the Pumkin riverites.

The *Delta* says:

The present condition of the wheat crop is by no means satisfactory. Still if we consider the extraordinary dryness of the season we will have to regard the prospect as very flattering indeed. There has been less rain this season, up to the present time, than during any previous year of which we have a record. The amount of rain that had fallen up to this time last year, was about a half an inch or a little more in excess of what has fallen the present season. Four inches and forty-one hundreths for the rainy season would hardly be sufficient to mature a crop in any county; that is just all we have had up to the present If we should have anything like a good heavy rain within a few days we would still have fair yield; enough for the home market; and that would be something extraordinary; but the season is too far advanced now for us to be able to hope for more than a half crop. The weather for the last few days, has been very dry and attended with desiccating winds.

We excerpt this from the Snelling *Argus*;

Dr Brockway, while riding his horse to water near the edge of the town on Tuesday last, was thrown to the ground with such violence that those who first discovered him supposed him dead. He was immediately removed to his residence and medical aid promptly summoned. On first examination it was supposed the injuries were only external and nothing serious would result therefrom, but on further examination it was found that one of his ribs was broken; the extent of internal injuries sustained are not (at this time) positively known. His condition is considered very critical, but not necessarily fatal.

The Mariposa *Gazette* has these items of news:

We hear that a large quantity of amalgam, worth over $3,000, was stolen from Wilcox & Catron's mill on Buckeye a few days ago, the batteries being cleaned up in the still hours of the night by some person or persons unknown and unauthorized. Mr. Wilcox, like a good Democrat, had the "heathen Chinee," as well as Bill Nye, employed about the premises, and is not disposed to be personal—don't know who did it.

Mrs. J. Quierolo was severely bitten by a dog on one of her hands on Tuesday evening, at Bear Valley, while she was in the act of pouring some oil down the dog's throat in order to save its life. The dog was supposed to have been strychnined.

And from the *Free Press* we take this:

Mrs. P. C. Appling, of Fresno county, recently shot an eagle, with a rifle, at the distance of 180 yards. The bird measured eight feet from tip to tip of the extended wings. She secured her prey, and has preserved its wings and claws as mementoes of her skill in marksmanship.

APPORTIONMENT OF COUNTY SCHOOL FUNDS.—The February apportionment of State School Funds is one thousand eight hundred and seventeen dollars and fifty cents, divided equally among seven hundred and twenty-seven census children. Amount per child, $2 50. The following sum were allowed the respective Districts less ten per cent., taken out as a Library Fund: Chowchilla, including Alabama District, has 84 children, $2 50 per child, fund allowed $210 00. Millerton, 100 children, amount $250 00. Fresno 51 children, $127 50. Kingston 46 children, $115 00. Dry Creek, 63 children, $157 50. New Idria. 92 children, $230 00. Panoche, 35 children, $87 50. Lake, 35 children, $75 00. Scottsburg, 54 children, $135 00. Centerville. 56 children, $140. Hazelton, 57 children, $142 50. Fancha, 39 children. $97 50. Mississippi, 20 children, $50 00.

THE widow of the late Horace Hawes will refuse to receive the allowance of $2,500 per annum which he made in his will, and will contest the validity of both the will and the deed of foundation of Mount Eagle University on the ground of his insanity.

IMPORTANT TO TAX-PAYERS.

As the Assessor of this county has commenced his work for this year, we publish a synopsis of his instructions from the State Board of Equalization, for listing property, as it will materially assist property holders in giving in the value and quality of their property:

Property should be given in at the price which it would bring at private sale, after a reasonable time given for its disposition, and not what it would bring at a forced sale. All statements as to the value of property must be made under oath, and parties refusing to conform with these requirements will be subject to the penalties of the law.

Land is to be classified, where practicable, naming its nature, use and adaptability—as arable, grazing, etc.

In assessing land no regard is to be paid to the use to which it is applied; whether enclosed, improved or occupied, or the size of the tract is not to be considered. Its intrinsic worth, simply as land, is alone to be estimated. Its fertility, adaptability for certain purposes, and proximity to market, are the elements of value. Improved land has two elements of value: First—the land to be estimated or valued the same as contiguous unimproved land of similar fertility and character; and second—the "improvements" thereon.

The value of improvements should be separately stated, and not blended with the valuation of the land.

The practice has obtained in some counties of assessing all lands at uniform rate. This must be abandoned, each tract should be assessed at its own value.

In assessing stock just discrimination should be used. Each variety should be valued according to its market value. Fine rams, horses and cattle are to be assessed in excess of the value of inferior kinds, which last have heretofore fixed the value of the different species. This evil must be avoided as unjust and unequal.

If the instructions of the State Board of Equlization are stricly carried out, the assessment roll of this county will be largely augmented. A further good is likely to result from a faithful execution of the commands of the Board to all portions of the State. It is well known that large tracts of the most valuable land in this State are owned by speculators, who place its value at a nominal figure in giving it in to the assessors, but who demand a good, round price for it when actual settlers offer to purchase from them. If they are made to pay taxes on their lands at their selling prices, it will soon make the holding of these vast tracts of unoccupied land an unprofitable business, and the holders will be compelled to sell at reasonable figures to save themselves.

THE question of irrigation has been receiving of late, a considerable attention in different portions of this county, and the drouth of this season will be the means of thoroughly testing its practicability and demonstrate the benefits to be derived from it. Several ditches for the purpose of conveying water from King's river out on the plains, are in course of construction or in contemplation. Those now building will convey sufficient water to irrigate thousands of acres of land, and must ultimately add materially to the wealth and prosperity of the section contiguous to them, if irrigation proves as effectual here as in other quarters, and we scarcely deem it a question. We expect to see, and before long, too, the now arid plains transformed into blooming gardens. In this, the northen portion of our county, the subject of irrigation is not receiving the attention that one of its magnitude should. The immense waters of the San Joaquin should be diverted by means of ditches and made to render fertile and productive the thousands of acres of land, now lying unoccupied, and only awaiting for the hand of enterprise to place water upon them to make them eagerly sought after.

SENATOR SUMNER has found a powerful ally in Senator Schurz, in his crusade against the pirates who are endeavoring to rob the treasury by paying a fabulous price for a fictitious title to an almost worthless island. It is quite refreshing to know that there are a few honest Republicans who are willing to assist the Democrats in defeating this nefarious scheme. If Grant fails in his efforts to secure the ratification of this pet scheme of his, it will forever close the door of reconciliation on the Sumner wing of the Radical party.

A NEW annexation scheme has made its appearance. A carpet-bag Senator from Louisiana, named Kellogg, has introduced a resolution of inquiry into the advisability of annexing Lower California and Northern Mexico to the United States.

SINCE the first day of this year California has forked over $1,539,476 in gold, for duties on goods imported to San Francisco. Pretty steep "protective" tax this, for half a million people to pay in less than three months.

NEWS ITEMS.

The Vallejo Chronicle warns the woodthieves of that town to look out for Hercules powder.

Rumors are in circulation to the effect that the Donahue road will be extended to San Rafael.

On Saturday last J. C. Donohue, of Sutter county, shipped to San Francisco, via the California Pacific Railroad, ten tons of Bayo beans.

A little four-year-old boy a son of David Egenhoff, of Mariposa, was kicked by a mule colt last week, and received a very severe and painful wound.

A little son of J. M. Wood, of Woodland aged about two and a half years, was kicked in the forehead by a horse the other day, and narrowly escaped being killed.

The editor of the Mail, while he is perfectly willing that negro barbers should vote at elections in Woodland, is sorely perplexed becaus intelligent young gentlemen residing there and attending college should have exercised that privilege.

THE BAYONET LAW.—Says the New York *World*: The argument that the bayonet election acts are unauthorized even by the fifteenth amendment, since that amendment only operates upon States and the acts apply to individuals, has attracted such attention and is so sound that it is only proper the credit of its origin should be given Senator Casserly, of California, that gentleman making the point in debate on the first enforcement act. Briefly stated, the argument is this The fifteenth amendment reads:

SEC. 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States, or by any State, on account of race, color, or previous condition of servitude.

SEC. 2. The Congress shall have power to enforce this article by appropriate legislation.

The prohibition here is that no State shall interfere with negro suffrage, and is similar to the prohibition that no State shall pass any law impairing the obligation of contracts; and yet if any State pass a stay-law it has never been supposed that Congress could interfere with any citizen taking advantage of that law. The law is taken up before the Supreme Court of the United States and there decided unconstitutional. Similarly, if New York were to pass a law denying or abridging Cuff's "right" to vote, that law would contravene the fifteenth amendment; but what has Congress to do with a private citizen under that law, and still less with such citizen when there is no such law, or when no State *has* denied, abridged, and so on and so on? Till some State, not some citizen, does this, there is no offence.

RADICAL ALARM IN CONNECTICUT.—A *Herald* Washington special says: "The Republicans are somewhat alarmed as to the result of the approaching election in Connecticut, and considerable effort will be made to carry it. The Democrats expect to carry all the Congressmen except the Third district, where the Republican majority is over three thousand. The First and Second districts, which were represented by Republicans in the last Congress, are so close that the Democrats hope, with an extra effort, to carry them, thus leaving only one Republican from Connecticut in the house. William H. Barnum, Democrat, from the Fourth district, had over two thousaud majority in 1868. He has been re-nominated, and being a popular man, both in his District and in Congress, will most likely be re-elected. The fight will be made in the First and Second districts, where the Democrats hope to gain largely over the vote of 1868." We shall probably have some returns from this election by the mail today, as the election took place on last Monday.

THE San Francisco *Bulletin* gives an account of a missionary's son who had been born and reared among the Tonga Islanders, and who, naturally desirous of seeing a civilized country, obtained permission from his parents to visit the United States He soon became dissatisfied with San Francisco, and extended his travels to Arizona, where he was murdered by the Apaches. The young man had a faithful companion with him, a rough frontiersman, who speedily avenged his death by killing the Apache who had slain him. Not satisfied with that, the Californian, in the innocence of his heart, forwarded the Indian's scalp by mail to the good old missionary, believing that the possession of that trophy would serve him as a consolation for the loss of his son.

THE April number of the *Phrenological Journal* has been received. It contains a large amount of interesting and instructive reading matter, and is altogether a most valuable number of a valuable magazine. It is, in our opinion, one of the best periodicals published.

PARLOR ALBUM,

IN FIVE QUARTO VOLUMES!
Price, $9 00 Per Volume,
Or Forty Dollars Per Set Complete.

DESCRIPTION OF THE WORK:

The PARLOR ALBUM is doubtless the most extensive ART GALLERY ever published, and, by those who have examined the several portions of the work, it has been pronounced "The Climax of Beauty." Each volume contains 20 full page Chromo Lithographs, in Oil Colors, 40 full page Steel Engravings, 40 full page engravings on wood and 260 pages of reading matter, descriptive of the illustrations, the whole making each volume about one-half as thick, and same sized pages, of Webster's largest Diotionary. Each volume is complete in itself and will be sold separately, if desired, Sold by Subscription only.

Vol. I Is devoted to Wild American Birds.
Vol. II Contains Wild American Animals.
Vol. III, American Domesticated Birds & Animals
Vol. IV. Foreign Birds and Animals
Vol. V, Fishes. Reptiles and Insects.

This work will at once commend itself to the cultivated American people, and no library will hereafter, be complete without this addition to its treasures; while as a parlor amusement it is unequalled by American publications.

Agents Wanted.

We will give agents very liberal terms for selling the above described publications, and wish to appoint an agent in every town in the United States and British Provinces. Experienced Book Agents and all other persons of respectability should apply at once. Any Young Man or Young Lady can, by devoting a short time during the day or evening, secure a complete set, free of expense, or, if desired, we will allow large Commission in Cash.

We have prepared a most beautiful SPECIMEN BOOK FOR AGENTS, containing 5 of the Oil Chromos. 10 Steel Engravings, 10 Wood Engravings and 50 pages of descriptive reading, being selections from each volume, together with blank paper, specimens of binding, etc.

Our Specimen Book has cost us quite largely, and we do not wish to send it to persons who do not intend to act as agents, but to any one who will make an effort to procure subscribers to the Work, we will send the Specimen Book, prepaid, on receipt of 40 cents to cover postage. TOWN AND COUNTY.

CANDIDATES.—As candidates for the various county offices are beginning to crop out pretty freely, we have concluded to publish a list of the names of all those whose aspirations are known to us. For the Assembly the names of Alexander Kennedy, P. C Appling. Capt. J. A. Stevens, and Jonathan Esery are mentioned. For County Judge, the present incumbent, Hon. Gillum Baley, Judge W. T. Rumble, Dr. T. O. Ellis, Sr., and a Mr. Waggoner—a resident of Kingston—have been mentioned to us as aspirants. J. S. Ashman is the only man who has, as yet, expressed a willingness to have the office of Sheriff thrust upon him. Harry Dixon has expressed a willingness to fill the office of County Clerk for two years longer, if the people want him, and J. E. Sherrard has concluded to see if such is the public desire by running for the same office. The Treasurer's office is in search of the present efficient guardian, Mr. W. W. Hill. S. B. Alison, at present filling the office of District Attorney, is a candidate for re-election, and has for an opponent C. G. Sayle a former occupant of the office. John Walker, we guess, will have to do the official surveying for the county for another term. The office of Superintendent of Common Schools, we learn, has several applicants, among whom are the present officer, Mr. S. H. Hill, Mr. J. H. Van Ness, and Mr. J. D. Collins. Jeff Shannon has not yet fully determined to run for Public Administrator, but he may yet be persuaded to be a candidate. We had thought of running for Coroner, ourself, in order to fill up the ticket, but, at the earnest solicitation of friends, we have withdrawn in favor of Mr. E. J. Hildreth, who, it is thought, would add more weight to a Coroner's Jury than we possibly could. We would say to all candidates that we are prepared to announce their names at the rate of $10 each until the election. Do not be modest but come around and have your names placed before the public in good season. There is nothing like being in time. The names mentioned above do not, we think, comprise all that are aspiring for office in Fresno, and may contain some who are not really aspirants, but they are all those we have heard mentioned.

AFFRAY ON COARSE GOLD GULCH.—On last Saturday Mr. Andrew Johnsen, a resident of Coarse Gold Gulch, was brought to this town for medical treatment, he having been severely beaten, on the evening previous, by a man named Philips. Johnson and Philips had, a few days previous, had a difficulty in regard to some hogs, and on the day indicated the latter called at the house of the former, for the purpose, as he stated, of settling the matter. Philips endeavored to get Johnson to accompany him to the house of a man named Smiley, who, it seems, was somewhat interested in the matter, where he proposed to have an amicable settlement. Johnson refused to go, it being late in the afternoon, and the house being some miles distant, when Philips become enraged, and words ensued, he finally dismounted from his horse and began beating the former about the head and body with the butt-end of a loaded whip, he then remounted his horse and rode off. These particulars we gain from Johnson's statement of the affair. The matter will undergo judicial investigation, when the other side of the story will be elicited. Johnson's injuries are very severe, being both internal and external. He has always borne the reputation of being a quiet and inoffensive, as well as sober and industrious man.

THE Committee of Arrangements for the Odd Fellows' celebration on the 26th of April, have decided to build an arbor of evergreens on the vacant lot near the Court House. Under this a colation will be served. Judge Bradford has been solicited to deliver an oration, and Mr. R. H. Bramlet to read a poem. The exercises will be held in the Court Room. In the evening a grand ball will be given in the Court Room under the auspices of members of the order; the admission tickets to which will be $2 50 each, including supper. Music is to be furnished by Joe Myers and others of Visalia. The public is invited to participate in the festivities of the occasion.

BEAUTY.—The largest collection of beauty ever published in the United States is afforded in the Parlor Album, advertised in another column. This Album embraces the finest specimens of chromo lithographs, steel engravings and fine wood engravings ever afforded the public. The American Publishing Company of Rutland, Vt., desire an active agent in every town and village, to whom they offer liberal terms. Read the advertisement of Parlor Album.

SHOOTING AFFRAY ON KING'S RIVER.—A shooting affray occurred on King's river at Kinkaide's, above Smith's Ferry, on last Friday, between C. Wright and C. Moore, in the course of which the latter shot the former, the ball taking effect in the left breast. We can gain no particulars as to the cause of the disturbance. It is stated that Wright's wound is fatal.

RELIGIOUS.—The Rev. Mr. Trowsdell, of the Cumberland Presbyterian Church, will preach in the Court House in this town, on next Sunday morning and evening at the usual hours.

RODEA.—Messrs. Fowler & Kiekman announce that they will have a general rodea at their ranch on Upper King's river, ot the 10th of April.

RISING.—The warm weather is melting the snow in the mountains, and, consequently the river is rising very rapidly.

THANKS.—The thanks of this office are due to the Hon. Eugene Casserly for various Congressional documents.

DRY.—The grass in many parts of this county is already dry enough to burn, so desiccating have been the effects of the winds. We hardly expect to see enough grain realized in this county this season for seed, and hay will be almost out of the question. We regret to acknowledge this to be the case, but what is can't be helped.

DEPARTURE OF MAILS.—From and after the 1st day of April, until further notice, the mail for San Francisco will close every Tuesday, Thursday and Saturday at 10 o'clock A. M., and for Visalia the same days at 8 o'clock P. M.

LIST of letters remaining in Millerton Post Office, for the month of April, 1871: Baker & Walker, John Ben, Frank Brass, James Condrey, M. Feldbush, George Hamilton, W. H. Perry, Jose Ronero, Henry Slavin, J. G. Smith, Simpson & Cohn, Henry Taylor, Lorenzo de Witt, Mathew J. Willis.

A PETITION has been filed in the Probate Court by C. D. Davis and P. P. Stauber, praying that a guardian be appointed for Parker Downes, a demented man, aged about forty-five years, living in the vicinity of Centerville, in this county.

PAIN KILLER

PERRY DAVIS & SON PROVIDENCE R.I.

PROP.

1840 1870

The Pain Killer is by universal consent allowed to have won for itself a reputation unsurpassed in the history of medical preparations. Its instantaneous effect in the eradication and extinction of Pain in all its various forms incident to the human family, and the unsolicted verbal testimony of the masses in its favor, have been, and are its own best advertisements.

The ingredients of the Pain Killer being purely vegetable, render it a perfectly safe and efficacious remedy taken internally, as well as for external applications, when used according to directions. The stain upon linen from its use is readily removed by washing with alcohol.

This Medicine, justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over thirty years, and has found its way into almost every corner of the world; and wherever it has been used, the same opinion is expressed of its medical properties.

In any attack, where prompt action upon the system is required, the Pain Killer is invaluable. Its almost instantaneous effect in relieving pain is truly wonderful; and when used according to directions, is true to the name of PAIN KILLER

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time or for the spare moments. Business new, light and profitable. Persons of either sex easily earn from 50 c. to $5 per evening, and a proportional sum by devoting the whole time to the business. Boys and girls earn nearly as much as men. That all those who see this notice may send their address and test the business, we make this unparalleled offer: To such as are not satisfied, we will send $1 to pay for the trouble of writing. Full particulars, a valuable sample which will do to commence work on, and a copy of the People's Literary Companion—one of the largest and best family newspapers published—all sent free by mail. Reader, if you want permanent profitable work, address E. C. ALLEN & CO., AUGUSTA, MAINE.

HENRY T. HELMBOLD'S

COMPOUND FLUID EXTRACT

CATAWBA GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

FOR LIVER COMPLAINTS, JAUNDICE, BILIOUS AFFECTIONS, SICK OR NERVOUS HEADACHE, COSTIVENFSS, ETC. PURELY VEGETABLE, CONTAINING NO MERCURY, MINERALS OR DELETERIOUS DRUGS.

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea, nor griping pains. They are composed of the finest ingredients. After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Grape Pills are not sugar coated, from the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving consequently do not produce the desired effect. THE CATAWBA GRAPE PILLS, being pleasant in taste and odor, do not necessitate their being sugar-coated. Price FIFTY CENTS PER BOX.

HENRY T. HELMBOLD'S

HIGHLY CONCENTRATED COMPOUND

BEING PREPARED EXPRESSLY FOR THE ABOVE COMPLAINTS, ITS BLOOD-PURIFYING PROPERTIES ARE GREATER THAN ANY OTHER PREPARATION OF SARSAPARILLA. IT GIVES THE COMPLEXION A CLEAR AND HEALTHY COLOR AND RESTORES THE PATIENT TO A STATE OF HEALTH AND PURITY. FOR PURIFYING THE BLOOD, REMOVING ALL CHRONIC CONSTITUTIONAL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD AND THE ONLY RELIABLE AND EFFECTUL KNOWN REMEDY FOR THE CURE OF PAINS AND SWELLING OF THE BONES, ULCERATION OF THE THROAT AND LEGS, BLOTCHES, PIMPLES ON THE FACE, ERYSIPELAS AND ALL SCALY ERUPTIONS OF THE SKIN AND BEAUTIFYING THE COMPLEXION. PRICE, $1 50 PER BOTTLE.

HENRY T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT OF BUCHU!

THE GREAT DIURETIC,

has cured every case of DIABETES in which it has been given. IRRITATION OF THE NECK OF THE BLADDER AND INFLAMATION OF THE KIDNEYS AND BLADDER, RETENTION OF URINE, DISEASES OF THE PROSTRATE GLAND, STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICKDUST DEPOSIT, MUCOUS OR MILKY DISCHAGES, AND FOR ENFEEBLED AND DELICATE CONSTITUTIONS, OF BOTH SEXES, ATTENDED WITH THE FOLLOWING SYMPTOMS: INDISPOSITION TO EXERTION, LOSS OF POWER, LOSS OF MEMORY, DIFFICULTY OF BREATHING, WEAK NERVES, TREMBLING HORROR OF DISEASE, WAKEFULNESS, DIMNESS OF VISION, PAIN IN THE BACK, HOT HANDS, FLUSHING OF THE BODY, DRYNESS OF THE SKIN, ERUPTION OF THE FACE, PALLID COUNTENANCE, UNIVERSAL LASSITUDE OF THE MUSCULAR SYSTEM, ETC.

Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty-five or in the decline or change of life; after confinement or labor pains; bed-wetting in children.

Helmbold's Extract Bachu is diuretic and blood-purifying, and cures all diseases arising from habits of dissipation, and excesses and imprudences in life, Impurities of the Blood, etc., superseding copaiba in affections for which it is used, and syphilitic affections—in these diseseases used in connection with Helmbold's Rose Wash.

LADIES.—In many affections peculiar to ladies the Extract Buchu is unequaled by any other remedy—as in Chlorosis or Rentention, Irregularity, Painfulness or Suppression of customary Evacuations, Ulcerated or Schirrus State of the Uterus, Leuchorrhœa or Whites, Sterility, and for All Complaints incident to the sex, whether arrising from indescretion or habits of dissipation. It is prescribed extensively by the most eminent physicians and midwives for enfeebled and delicate constitutions, of both sexes and all ages (attended with any of the above diseases or symptoms).

H. T. HELMBOLD'S EXTRACT BUCHU

CURES DISEASES ARISING FROM IMPRUDENCES, HABITS OF DISSIPATION, ETC.

in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposuse. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, allaying pain and inflamation, so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the poison has, by use of powerful astringents, been dried up in the system to break out in a more aggravated form, and perhaps after marriage.

Use HELMBOLD'S EXTRACT BUCHU for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. PRICE ONE DOLLAR AND FIFTY CENTS PER BOTTLE.

HENRY T. HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a FACE WASH, and will be found the only specific remedy in every species of Cutaneous Affection. It speedily eradicates Pimples, Spots, Scorbutic Dryness, Indurations of the Cutaneous Membrane, etc., dispels redness and incipient inflamation, hives, rash, moth patches, dryness of scalp or skin, frost bites, and all purposes for which salves or ointments are used; restores the skin to a state of purity and softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin, H. T. Helmbold's Rose Wash has long sustained its principle claim to unbounded patronage, by possessing qualities which reder it a Toilet Appendage of the most superlative and congenial character, combining in an elegant formula those prominent requisites, Safety and efficacy—the invariable accompaniments of its use—as a preserver and refresher of the complexion. It is an exceltent lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the Extracts Buchu, Sarsaparilla and Catawba Grape Pills, in such diseases as recommended, cannot be surpassed. PRICE, ONE DOLLAR PER BOTTLE.

Full and explicit directions accompany the medicines.

Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upwards of 30,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the reason that his articles rank as standard preparations, and do not have to be propped up by certificates.

ARION PIANO!

IS SUPERIOR TO ALL OTHERS.

The ARION PIANO-FORTE has Greater Power than any other Piano-Forte manufactured

It Will Stand in Tune Longer,

and in its mechanical construstion it is more perfect, and therefore more durable than any instrument constructed in the usual modern style.

The arrangement of the Agraffe, the manner of stringing, the form and peculiar form and arrangement of the Iron Frame,

Supersedes all Others.

The use of a bar, (which is a part of the Iron Frame) on a line with the heavy steel stringing, gives

The construction of the WREST PLANK, into which the Tuning Pins are inserted, is such that it is impossible for the pins to become loosened, or the Wrest Plank itself to split, as is too often the case in other Piano Fortes,

The Extraordinary Evenness

THE PATENT

ARION PIANOS

Are used exclusively in the American

Conservatories of Music of New York City.

The most severe test a Piano can receive is constant use in a Conservatory.

Read the Following:

It affords me much pleasure to give you, in these few lines, a very sincere testimonial for the Piano-Fortes of your manufacture. We have now used the "Patent Arion Pianos" in our Conservatories for a year, and have had a fair opportunity of testing their durability during that time. The Pianos have been played upon almost constantly from morning till night, and a Piano must indeed be a good one when it will bear such constant use without showing signs of defection. As for remaining in tune, it outrivals any Piano known to me.

Their peculiar sweetness of tone in the treble, (as compared to other Pianos with the ordinary metal agraffe arrangement,) is so striking that I have had pupils remark, while taking their lessons, that although they had at home what they supposed to be one of the best makes of Pianos, still the treble was very wiry-toned compared with the ARION.

What makes them still more desirable is their uniform volume of tone, which enables an artist to perform a composition in its true character.

In total, I can conscientiously endorse all that is claimed by the ARION PIANO-FORTE COMPANY for their superb instruments, as I consider them superior to any other make.

Congratulating you upon the great success you have obtained in the manufacture of so perfect an instrument, I remain yours.

Very truly,
HENRY SCHROEDER,
DIRECTOR.

AGENTS WANTED.

We want first class and responsible Agents in every city and town where we have not already appointed them.

We Have Just Published

Our Annual Illustrated Pamphlet, which contains a full description of the interior construction of the PATENT ARION PIANO-FORTE, and all the other leading Pianos of the principal makes; illustrated with cuts, thus contrasting the ARION with all other first class Pianos, and proving

WHY AND WHERE

Our Pianos are superior to any in the market.

Our pamphlet contains engravings of all the different styles of instruments that we manufacture, giving a full description of each, so that a person can select the style he may desire to order, with the assurance that they will receive just as good a Piano as if they were in our warerooms to select it. We have sold over Five Thousand Pianos, many of them being shipped great distances, and we have never yet received the first complaint. As we give a written guarantee with every Piano we manufacture, for five years, the purchaser runs no risk.

Don't fail to write for our pamphlet, which we mail FREE, and when you write state what paper you saw this notice in.

N. B.—We caution the public from purchasing a cheap Piano, which has recently been put in the market, bearing the name "Arion." All genuine Arion Pianos bear the name "Patent Arion," and can only be purchased from our New York Warerooms, or our authorized Agents throughout the United States.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD!

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous.—Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tennant of the organism undermines the constitution, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops in one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear.—Persons afflicted with the following complaints generally find immediate relief and at length cure by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Sore Eyes, Sore Ears, Tetter, Salt Rheum, Scald Head, Ringworm and other visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal or Mercurial Diseases are cured by it, though a long time is required for subduing these maladies by any medicine. But long, continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflamation of the Liver, and Jaundice, when arising, as they often do from, the rankling poisons in the blood. The SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fear, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

WOMAN'S RIGHTS.

The right to wake when others sleep;
The right to watch, the right to weep;
The right to comfort in distress;
The right to soothe, the right to bless;
The right the widow's heart to cheer;
The right to dry the orphan's tear;
The right to clothe and feed the poor,
The right to teach them to endure;
The right, when other friends have flown,
And left the sufferer all alone,
To kneel the dying conch beside,
And meekly point to Him who died;
The right a happy home to make
In any clime, for mercy's sake;
Rights such as these are all they crave,
Until their last—a peaceful grave.

HOUSE, FARM AND GARDEN.

To Farmers.—Of all the dreary places, deliver us from the dreary farm houses which so many people call home. Bars for the front gate; chickens wallowing before the door; pig-pens elbowing the house in the rear; scraggy trees never cared, or no trees at all; no cheering shrubs; no neatness; no trimness. And yet, a lawn and trees and a neat walk and a pleasant fence around it, don't cost a great deal. They can be secured little by little and at odd times, and the expense hardly felt. And if the time comes to sell the farm, fifty dollars so invested will often bring back five hundred. For a man is a brute who will not insensibly yield to a higher price for such a farm, when he thinks of the pleasant surrounding it offers to his wife and children. Farmers, beautify and adorn your farms; set out orchards, shrubbery, shade trees; lay off lawns build good fences; put up good gates, and paint or whitewash your outhouses and fences.

Food for Fruit Trees.—It must be apparent to every reflecting person that the material round about a fruit tree, which renders important aid in the production of fine fruit of any kind, must be more or less exhausted after a vine, bush or tree has produced abundant crops for several seasons in succession. For example, a large pear or apple tree will yield from ten to fifteen bushels of fruit annually. Many trees have produced than twice these quanties at one crop. After a few seasons the materials that the roots must be supplied with, in order to develop the fruit, will be more or less exhausted. For this reason fruit begins to fail, and the failure is attributed to an east wind or some mysterious atmospheirc influence, when in reality the sole cause is starvation, arising from an impoverished soil. It is evident fruit trees cannot produce fine fruit out of nothing, or out of such material as may be desirable for some other purpose.

Annointing with Oil.—When a child or an adult, for that matter, takes a heavy cold which settles on the chest, or in the throat or head, or in the region of the nose, one of the very first things to be done is to annoint the parts affected with sweet oil. The oil should be heated, which can be easily done by pouring a little into an iron spoon, and holding the latier over the flame of a lamp for a minute, and then rubbed into the skin of the patient with the hand. Do this always at night, and at other times in the day when the case is a severe one. It is certain relief, and will not do a little towards effecting a cure. Incipient influenza and croup are not unfrequently warded off in this way.

Oranges and Cork Oak.—The Visalia *Delta* has the following:

We have had an extraordinary heavy frost lately, but we notice that it seems to have no effect upon our orange trees. Those that are in bearing look perfectly healthy, and will undoubtedly mature the crop. There is a region along the foot-hills much more free from frost than the valley around Visalia, and there can be no doubt but that this region is as well adapted to the production of the orange as any portion of the State. We notice, also, the few specimens of cork oak that have been planted are healthy, and have made a growth quite equal to that of our native live oak.

To Get Rid of Ants.—Drop some quicklime on the mouth of their nest, and wash it in with boiling water; or dissolve some camphor in spirits of wine, then mix with water and pour into their haunts; or tobacco water. They are averse to strong scent. Camphor will prevent their infesting a cupboard, or a sponge saturated with creosote.

"To what may we liken our temptations, and the way in which we may rise above them? I have often thought that they resembled the rocks which rear their jagged sides above the waves when it is low water. No vessel dare come near them, and even the little boat is obliged to pass amongst them with the greatest care. But after a while the tides come sweeping into the bay, and buries the rocks under a flood of water, so that the largest ships may ride in safety above their teeth of death, together with the lightest skiff. In our unbelief we often ask, How can I hope to resist the many enemies who constantly seem to be seeking my destruction? But before long the influence of the Holy Spirit will come, bearing us in safety, like a rising tide, over the rocks of temptation."

Grant and his Gains.—It is suggested by somebody, who seems inclined to meddle with pecuniary affairs that do not immediately concern him, that, if Grant is re-elected to the Presidency and continues to to take care of the pennies, in order that the pounds may take care of themselves, as he has done so far, he will retire at the end of the second term with as much money as a mule can pull. We do not know positively how much money an average mule can pull, having found it always more convenient to use a locomotive or two for the transportation of our own funds; but from what little knowledge we have of the business, we are inclined to think the suggestion is not more than a few thousand dollars out of the way. Gen. Grant, if he should be re-elected and should meet with no great losses from depreciation in the price of things, will certainly go out of the White House a very rich man. It is said that he has two hundred and fifty thousand dollars worth of real estate in Missouri, and we all know that he has a thirty thousand dollar cottage at Long Branch, a twelve thousand dollar interest in some Michigan iron works, and a contingent title to a number of lots of fabulous value on the Bay of Samana. This for a man in the prime of life, who, ten years ago, did not know when he got the end of one pair of boots where the next pair was to come from, is doing remarkably well. Few of us, indeed, have done better.

It was the misfortune of all our Presidents, from Washington to Johnson, that they had no faculty for the accumulation of the beggarly elements of this world, and let what little money they did get slip through their fingers as fast as they got it. The result was, most of them left the White House with less of the current coin of the realm than they had when they went there. It was their own fault, of course.

They neglected their opportunities habitually, and did it, too, with a looseness, and a blind confidence in the ability of the future to take care of itself, that it would have been amusing if it hadn't been so very sad. For instance, while Johnson was President, somebody in New York sent him, one fine day, a beautiful carriage and a pair of horses that would have absolutely made your mouth water to look at. And what did Johnson do? Common sense, which they cul ivate in the Grant family, would tell you that he accepted the gift and appointed the giver to the first vacancy in the cabinet; but history, which is far more reliable in cases of such delicacy, will tell you that he did nothing of the sort. On the contrary, he sent the carriage and horses back, with a message that would make men of Grant's sensitive nature blush for the honor of the Executive office, and was seen riding the next day in a miserable plebian street car, at five cents a trip, and with no apparent thought of asking the Treasury to refund the money. No man, since the death of the Cardiff Giant, could stand up in the Presidency under such a self-applied pressure as that, and we are not surprised to be told that instead of occupying something resembling a gorgeous Long Branch villa, Johnson is now living in a one-horse two-story brick house, that stands immediately on the street, without the sign of a front yard. He saw that all the rest of the Presidennts made a point of refusing things that were offered them, and it would seem that it never occurred to him but that he ought to do so to.

Grant has more sense about such things than all the other Presidents put together. He has no idea of running the Government exclusively for the benefit of other people. He is not the man to fool away his time as the rest of them did, from Washington down. Consequently, if you lay anything on the steps of the White House at night—anything, at least, except a Cleavland pup—you may rest assured it will be taken in before morning, and, if you accompany it by sufficient proof of your utter incapacity to fill any office whatever, the chances are that you will very soon find yourself appointed to one that is very difficult to fill. In two years Grant has accumulated a fortune of more than a quarter of a million. Six years more of Executive speculations will bring him out a millionaire very easily. No wonder Old Man Grant thinks his son is the "smartest man that ever lived except Washington."—*Louisville Courier-Journal*

The Great Trees.—Professor Agassiz made a speech at an agricultural meeting in Boston a few weeks since, on the great trees of California, in which he stated that from an examination of the section of the tree then on exhibition in Boston, he was satisfied that it was 1810 years old, as it was clear that a distinct layer grew each year. He also spoke of a larger tree than that, which was undoubtedly 3400 years old, and which was a big tree during the Persian war, a larger tree at the time of Charlmagne, and as large as the one now in Boston in the days of Solomon.

It is asserted that in many drinking places in Ohio there is prominently placarded the question, "Have you your wife's consent to drink?"

An Indian from the Far West, a dreadful savage, wonders how it is that most all our women are hump-backed.

"SHOOST SO LONG AS IT VAS."

A Chicago correspondent has the following: During a recent trial before Justice Dougherty it was thought important by counsel to determine the length of time that certain "two quar ers of beef; two hogs, and one sheep," remained in an express wagon in front of plaintiff's store before they were taken away by defendant. The witness under examination was a German, whose knwoeldge of the English language was very limited; but he testified in a very plain, straightforward way to having afterwards carried it out and put it in the aforesaid wagon.

Then the following ensued:

Counselor Enos—"State to the jury how long it was after you took the meat from the store, and put it into the wagon before it was taken away."

Witness—"Now I shoos cand dell dat. I dinks 'bout dwelve feet. I not say nearer as dat."

Counsel—You don't understand me. How long was it from the time the meat left the store, and was put into the wagon before it was take away by the defendant."

Witness—"Now I know not what you ax dat for. Der vagon he vas back up mit der sidevalk, und dat's shoosts so long as it vas. You tell me how long der sidevalk vas. Den feet? Dwelve feet? Den I dells you how long it vas."

Counsel—"I don't want to find out how wide the sidewalk was, but I want to know, (speaking very slowly) "how—long—this meat—was—in—the—wagon—before—it—was—taken—away?"

Witness—"Oh! dat! Well, now, I not sold any meat so. I all time weigh him; never measure meat, not yet. But I dinks 'bout dree feet. (Here the spectators and his honor and the jury smiled audibly.) I not know: gentlemens, how is dis. I dell you all I can, so good as I know."

Counsel—"Look here, I want to know how long it was before the meat was taken away after it was put into the wagon?"

Witness (looking very knowing at the Counsel)—"Now you try and get me in a scrape. Dat meat vas shoost so long in der vagon as he vas in der shop Dat's all I told you. Dat meat vas dead meat. He don't got much longer in den dousan' year not mooch."

Counsel—"That will do."

HOWE MACHINE COMPANY'S

WORLD RENOWNED

SEWING MACHINES!

Paris Exposition Universelle, 1867.

TWO GRAND PRIZES,

GRAND CROSS OF THE LEGION

OF HONOR,

To Elias Howe, Jr., as Inventor,

And Gold Medal for

THE BEST SEWING MACHINE.

Highest Honors ever Conferred

FOR SEWING MACHINES.

THE Machine which bears his name has long been regarded as the standard of excellence, and has become celebrated the world over. The work done by these Machines is unsurpassed—sewing the thinnest muslin or the thickest cloth, with equal facility; and requiring no extra adjusting for uneven thickness or passing over seams; it turns its own hem as it sews, sewing a seam stronger than the fabric itself. To see it hem, fell, tuck, braid, cord, quilt and gather, it seems more like a thing of life than a machine moved by the will of the operator. It is capable of doing any description of sewing that is required in a family; and also for seamstresses and dressmakers it will be found invaluable. They seldom or never give any trouble in operating, and in a word, are the

MOST SATISFACTORY SEWING MACHINES IN USE.

Notwithstanding their great superiority, they are sold at prices as low as other first-class Machines.

A Medallion likeness of Mr. Howe is imbedded in the plates of every Howe Machine, without which none are genuine. Every purchaser of a Sewing Machine, should inquire for

Elias Howe, Jr's Sewing Machines,

And if they are not sold in their vicinity, address the General Agency for Illustrated Circulars, etc., and do not purchase until you have thoroughly investigated these renowned machines.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES!

DR. W. K. DOHERTY'S

PRIVATE

Medical and Surgical Institute,

No. 519 Sacramento Street,

Corner of Leidesdorff Street (a few doors below What Cheer House).

(Private entrance on Leidesdorff street.)

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Frivate and Chronic Diseases. cases of Secrecy, & all Sexual Disorders.

TO THE AFFLICTED,

Dr. W. K. Doherty returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis, in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc.., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way and has references of unquestionable veracity, from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb hysteria, sterility, and all other diseases peculiar to females she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and diseases. Let no false delicacy prevent you but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families, should write or cal at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, how ever distant, who may desire the opinion and advice of Dr. Doherty in their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred and confidential.

If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case, (including the remedies) will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel thus transmitted. Consultation by letter, or otherwise, FREE. Permanent cure guaranteed, or no pay. Address,

W. K. DOHERTY, M. D.,
San Francisco, Cal.

Spermatorrhœa.

Dr. Doherty has just published an important pamphlet embodying his own views and experiences in relation to Impotence or Virility, being a short treatise on Spermatorrhea or Seminal Weakness, Nervous and Physical Debility, consequent on this affection, and other diseases of the Sexual Organs.

This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.

THE ELLIPTIC

SEWING MACHINES ! !

WARRANTED THE BEST.

THE Elliptic Sewing Machines are manufactured and warranted by the Wheeler & Wilson Sewing Machine Company. The late and important improvements enable us to guarantee to every purchaser that the Elliptic Machine will do more work, better work, and a greater variety of work than any other Sewing Machine now in use. The economy of the Elliptic Machine in a family is almost incredible; with one, a good operator can do the work of twelve hands. By it, the making of garments is reduced from a question of hours to one of minutes as the following table will show:

(It is not to be understood that the following table is the time to make the garments, but to do the stitching only.)

FOR SALE.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vegetable Vinegar Bitters, now spread over the United States and countries far beyound, we are necessitated to devote our entire time to said business.

We are the oldest drug firm on the Pacific Coast and the only one continuous under the same proprietors since 1849, and have determined to sell our large, prosperous and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of

The Great Medical Discovery!

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS,

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Viscral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

FLORENCE

SEWING MACHINES

The FLORENCE has now been used on the Pacific Coast seven years, its merits are known, its reputation established.

It is here in deily use in more than six thousand homes, and is effectually speaking for itself, like

"GOLD TRIED IN THE FIRE."

Competition and opposition—fair and unfair—have not consumed or injured it. It stands the practical test upon a greater range of work than any other Family Sewing Machine in use.

If there is one within a thousand miles of San Francisco not working well, if informed of it, I will fix it for nothing, and pay all Express charges.

Shoemakers, Tailors, and Glove-makers are invited to examine our New Florence Manufacturing Machine.

Descriptive Circulars and Samples of Sewing sent free on application.
